## Solid Form CNC Abrasive Waterjet Cutting

The 2009 OMAX 80X Features Include:

Tilt-A-Jet: Taper eliminating cutting head

Optical Locator: Accurately positions parts when waterjet cutting is a secondary operation

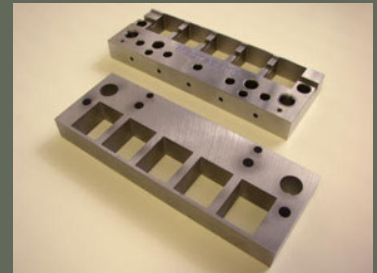

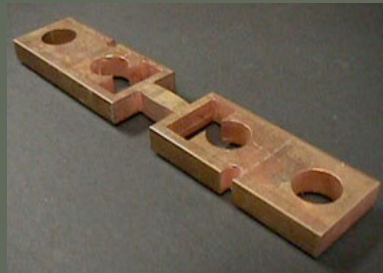

Latest release in layout and tool path software

80" x 160" Table

Plate up to 8"

Repeatable accuracy of 0.003"

Specialty metals • Prototype and Design • Quick turnaround

## *Other Machine and Fabrication Services Include:*

TIG WELDING •• MIG WELDING •• MANUAL MILL •• MANUAL LATHE ••  
SHEAR 10' x 1/4" •• PRESS BRAKE 12' x 90 TON •• HORIZONTAL BAND SAW ••  
PLASMA CUTTER •• ACETYLENE CUTTING & WELDING •• DRILL PRESS ••  
10KV GENERATOR / WELDER •• ON-SITE FABRICATION •• 50" SLIP ROLLS

## Waterjet Benefits:

Waterjet cutting eliminates heat affected zones, heat distortion, reduces secondary grinding and de-burring operations.

No problem with reflective materials.

Save on machine tooling with no heat affected zone.
